RUNNING ON SOLAR

Our COF building has recently had solar installed thanks to the team at Integrated Energy. With such a large roof capturing the sun's energy, we're able to generate enough power to feed excess back into the grid while also significantly reducing our carbon emissions.

Forgot to book your COF again? It happens more often than you'd think. The good news is we offer convenient same-day COF bookings to get you back on the road quickly—just give us a call or book online today before it slips your mind again.

SITELWISSE GOLD!

We're proud to be awarded SiteWise GOLD for 2026 through to 2027.

We're committed to making sure our facility is as safe as possible for both our customers and our staff.

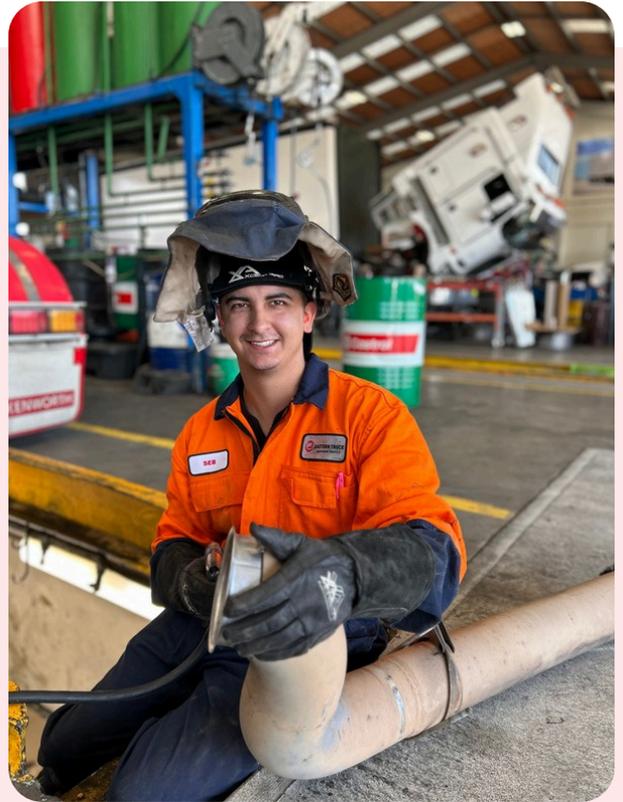

Get your COF, servicing, repairs and cleaning all sorted in one place at Eastern Truck

MEET SEB QUALIFIED ENGINEER

We're stoked to have Seb come on board here at Eastern Truck. As a qualified engineer, Seb allows us to fabricate and repair on-site, meaning you and your truck can be back on the road sooner.

GET 'ER CLEANED!

Just a reminder that we have a full-wash cleaning bay located next to our Inspections Building. Equipped with a high-pressure wash system and a hydraulic lift, we can thoroughly clean your truck from top to bottom—including underneath where it matters most.
